

NESTICO'S STUFF FOR PARTIES ELSEWHERE

We can prepare our homemade food for backyard parties, or entertaining in your home or office. The food can be picked up here, or in some limited cases delivered at an extra charge. We can have it hot and ready to eat, or cold to be heated and served by you later. Our experience suggests that a half pan will serve 8 to 10 people, and a full pan will serve 16-20 people, but this can vary according to party and you may want to figure more or less what you think, and what other food you will be serving!
